Straightforward

TYPE:

Lecture/Participation

CE HOURS:

2.0 hours

SPEAKER:

Casey Pichany, Territory Manager

This is an introductory course for implant retained dentures. We will review the principles behind different kinds of implant abutments and housing systems related to removable implant dentures. We will use a “Locator-like” system, a housing and abutment system that utilizes PEEK liners instead of soft nylon liners, as reference. We will also discuss the pros and cons of systems on the market.

The goal of the course is to show the audience the principles of implant retained removable dentures and the many options out there that are best suited for their patients.

OBJECTIVES

- Learn what implant retained removable dentures are
- Evaluate and repair removable dentures
- Provide overview of various options for removable dentures and full arch restorations
- How to process “snap on” style removable dentures
- Principles of choosing the proper system
